Plants for a Low Maintenance Landscape

Many low maintenance plants are old standbys that tolerate heat, exposure and a wide variety of difficult soil conditions once established. In addition, these plants are often pest resistant and require limited attention to pest management or spraying, if any. These qualities may also give certain plants invasive tendencies; these should be avoided or used only if they can be restrained. As our climate changes, plants that were not problematic may become so and should be monitored for invasive tendencies. Though low maintenance plants will survive in difficult places, given optimal conditions, they will thrive with little care (although some will need protection from deer injury).

Botanical Name	Common Name Nat		Comments	
Acer rubrum	Red Maple	Yes	Outstanding fall color, red ; tolerates wet soil	
Betula nigra 'Heritage'	Heritage River Birch Y		Resistant to bronze birch borer	
Carpinus caroliniana	Ironwood, American Hornbeam	Yes	Prefers light shade	
Cedrus atlantica	Atlas Cedar	No	Evergreen	
Cercidiphyllum japonicum	Katsura Tree	No	Tolerates wet soil; drought sensitive	
<i>Chamaecyparis obtusa</i> and <i>C. pisifera</i>	False Cypress	No	Evergreen	
Cladrastis kentukea	Yellowwood	Yes	Late spring flowers, white, fragrant	
Gingko biloba	Ginkgo, Maidenhair Tree	No	Pollution and salt tolerant; attractive fall color, yellow; fruit has unpleasant odor – non-fruiting male trees are available	
Gymnocladus dioicus	Kentucky Coffee Tree	Yes	Late spring flowers, greenish-white, some fragrance; Male varieties available if fruit is not desired	
Halesia tetraptera	Carolina Silverbell	Yes	Spring flowers, white, emerging before leaves	
Ilex opaca	American Holly	Yes	Evergreen, best in low wind exposure and some shade; ornamental fruit, attracts wildlife	
Koelreuteria paniculata	Golden Rain Tree	No	Summer flowers, yellow	
Metasequoia glyptostroboides	Dawn Redwood	No	Fine textured deciduous conifer – bronze fall color; drought sensitive	
Nyssa sylvatica	Blackgum, Black Tupelo	Yes Outstanding fall color, yellow thr orange and red		
Oxydendrum arboreum	Sourwood, Sorrel Tree	Yes	Summer flowers, white, fragrant	
Picea abies	Norway Spruce	No	Evergreen	
Sciadopitys verticillata	Umbrella Pine	No	Evergreen	
Styphnolobium japonicum	Scholar Tree	No	Summer flowers, creamy white; very drought tolerant	
Taxodium distichum	Bald Cypress	Yes	Deciduous conifer - orange-brown fall color	

Large Trees (30' and over)

Cornell Cooperative Extension is an employer and educator recognized for valuing AA/EEO, Protected Veterans, and Individuals with Disabilities and provides equal program and employment opportunities, NYS College of Agricultural and Life Sciences, NYS College of Human Ecology, and NYS College of Veterinary Medicine at Cornell University, Cooperative Extension associations, county governing bodies, and U.S. Department of Agriculture, cooperating.

Small Trees (15' to 30')

Botanical Name	Common Name	Native	Comments
Amelanchier spp.	Serviceberry, Shadblow	Yes	Early spring flowers, white; edible
			fruit attracts wildlife
Cercis canadensis	Eastern Redbud	Yes	Spring flowers, pink
Chionanthus virginicus	Fringe Tree	Yes	Late summer flowers, fragrant;
			pollution tolerant
Cornus kousa	Japanese Dogwood	No	Late spring flowers, white
Cornus mas	Cornelian Cherry	No	Early spring flowers, yellow;
			red fruit
Cotinus spp.	Smoketree, Smokebush	Some	Late spring flowers, smoky pink;
<i>C. obovatus</i> is native			long lasting effect
Hamamelis virginiana	Witch Hazel	Yes	Fall/winter flowers, yellow, red
Hovenia dulcis	Japanese Raisin Tree	No	Early summer flowers, white
Ilex decidua	Possumhaw	Yes	Persistent red fruit
Magnolia stellata	Star Magnolia	No	Early spring (frost sensitive)
2			flowers, white
Rhus typhina 'Laciniata'	Staghorn, Laceleaf Sumac	Yes	Tolerates drought and pollution;
_			persistent red fruit

Shrubs

Botanical Name	Common Name	Native	Comments
Aronia melanocarpa var. elata	Black Chokeberry	Yes	Mid spring flowers, white; deep red fall color
Chaenomeles speciosa	Flowering Quince	No	Early spring flowers, salmon, red, pink or white; drought tolerant
Forsythia spp.	Forsythia	No	Ubiquitous early spring flowers, yellow. Tolerates poor soil.
Ilex crenata	Japanese Holly	No	Evergreen; pollution and pruning tolerant
Ilex glabra	Inkberry	Yes	Evergreen; prefers acid soil
Ilex verticillata	Winterberry	Yes	Showy, persistent red fruit; needs a male pollinator
Itea virginica	Virginia Sweetspire	Yes	Early summer flowers, white, fragrant; semi-evergreen
Potentilla fruticosa	Bush Cinquefoil	Yes	Early summer flowers, yellow, white; drought tolerant
<i>Spiraea</i> spp.	Spirea	No	Spring or early summer flowers, white to pink
Viburnum carlesii	Korean Spice Viburnum	No	Spring flowers, pink, white; resistant to viburnum leaf beetle
Viburnum plicatum	Doublefile Viburnum	No	Spring flowers, white; resistant to viburnum leaf beetle
Viburnum rhytidophyllum	Leatherleaf Viburnum	No	Spring flowers, white; resistant to viburnum leaf beetle
Weigela florida	Weigela	No	Spring flowers, white, pink, red
Yucca filamentosa	Yucca	Yes	Summer flowers, white; Evergreen; prefers dry soil

Ornamental Grasses

Botanical Name	Common Name	<u>Native</u>	<u>Comments</u> (height in inches, foliage color)	
<i>Festuca ovina</i> 'Glauca' Helictotrichon sempervirens	Blue Fescue Blue Oat Grass	No No	6-8" 30"	Showy slivery-blue Attractive blue foliage
Panicum virgatum	Switchgrass	Yes	36-48"	Purple to silver-white, airy flower panicles; attractive fall color

Perennials

Botanical Name	Common Name	Native	<u>Comments</u> (height in inches, color, bloom time)		
Alchemilla mollis	Lady's Mantle	No	12-18"	Yellow	June-July
Amsonia tabernaemontana	Blue Star	Yes	24-36"	Light Blue	June
Aruncus dioicus	Goatsbeard	Yes	36-60"	White	June-July
Baptisia australis	False Indigo	Yes	36-48"	Blue	May-June
Brunnera macrophylla	Siberian Bugloss	No	12-18"	Blue	April-June
Ceratostigma plumbaginoides	Plumbago	No	6-18"	Blue	AugOct.
Chelone spp.	Turtlehead	Yes	24-48"	White, Pink, Purple.	AugOct.
<i>Cimicifuga</i> spp.	Fairy Candles,	Some	24-60"	White, Light Pink	AugOct.
(C. Americana and	Snakeroot				
<i>C. simplex</i> are native)					
Echinops humilis	Globe Thistle	No	36-48"	Blue	June-Sept.
'Taplow Blue'					
Epimedium spp.	Barrenwort	No	8-18"	White, Pink, Yellow	April-May
Euphorbia polychroma	Spurge	No	18"	Yellow	April-May
Geranium sanguineum	Cranesbill Geranium	No	12-18"	Pink, Reddish-Purple	May to June
Hemerocallis spp. & cvs. *	Daylily	No	18-48"	Orange, Yellow, Red,	June-Sept.
				Pink	
<i>Heuchera</i> spp. & cvs.	Coral Bells	Yes	12-24"	White, Pink, Red	May-June
Hosta spp. & cvs.*	Plantain Lily	No	12-24"	Lavender, White	July
Liriope muscari	Lily Turf	No	18-24"	Purple, White	July-Aug.
Sedum spp.	Stonecrop	Some	6-24"	Yellow, Pink, Red,	July-Sept.
				White	

*Deer favorites: must have protection.

Annuals

Botanical Name	Common Name	Native	Comments
Amaranthus caudatus	Tassel Flower	No	Showy seed heads and/or leaves
and A. tricolor	Joseph's Coat		A. tricolor grown as vegetable
Catharanthus roseus	Madagascar Periwinkle	No	Pink, red, white flowers;
			ground cover
Cleome hasslerana	Spider Flower	No	White, Pink, Lavender

Annuals, continued.

Botanical Name	Common Name	Native	<u>Comments</u>
Eschscholzia californica	California Poppy	Yes*	Orange, red, yellow flowers;
			blue-green foliage in cool weather
Euphorbia marginata	Snow-on-the-Mountain	Yes*	Showy variegated leaves
Gomphrena globosa	Globe Amaranth Yes* Pink, purple, white		Pink, purple, white flowers
Lobularia maritima	Sweet Alyssum	No	Pink, white flowers; prefers cool

			temperatures
Mirabilis jalapa	Four O'Clock	No	Fragrant; red through pink,
			yellow, white flowers
Portulaca grandiflora	Moss Rose	No	Red through pink, yellow, white
			and bicolor flowers
Senecio cineraria	Dusty Miller	No	Silvery-white, felted leaves
Tagetes spp.	Marigold	No	Yellow, orange, red flowers
Tithonia rotundifolia	Mexican Sunflower	Yes*	Orange to red flowers
<i>Tropaeolum</i> spp.	Nasturtium	No	Cream, yellow, orange through
			red edible flowers
Verbena bonariensis	Verbena	No	Purple flowers; self-seeds

* Native to warm regions of North America

Invasive Plants

Some plants on the above lists are invasive in warmer climates, but have not yet become so in our area. Any plants that can easily handle a variety of difficult growing conditions should be closely monitored and removed or avoided if they become aggressive. The plants below are common ornamentals that have colonized large areas and displaced native species.

Common Invasive Plants to Avoid

Botanical Name	Common Name	Native	Comments
Aegopodium podagraria	Bishop's Weed	No	Aggressive ground cover
Berberis thunbergii	Japanese Barberry	No	Widely used, showy border plant;
			shade tolerant and deer resistant –
			aggressively colonizes woodland
			areas
Euonymus alatus	Winged Euonymus	No	showy red fall color; shade
			tolerant and deer resistant –
			aggressively colonizes woodland
			areas
<i>Lonicera</i> spp.	Bush Honeysuckle	No	Aggressive growth and seeder
Pennisetum alopecuroides	Moudry Fountain Grass	No	Aggressive seeder
'Moudry'			
Phyllostachys spp.	Grove (running) Bamboo	No	Aggressive underground runners;
			very difficult to remove
Pleioblastus spp.	Dwarf Bamboo	No	Aggressive underground runners;
			very difficult to remove

This is by no means a comprehensive list of invasive or potentially invasive plants. Contact Cooperative Extension at 845-429-7085 option 3 or <u>www.rocklandcce.org</u> for more information.
